

## AFTER CARE SHEET

### How do I clean my flagstone floor?

Now that you have had your flagstone floor fully restored, the after-care couldn't be easier. Simply use a soft, natural hair broom as a part of your daily cleaning routine. For a more thorough clean, use a mop and warm water - avoid using detergent as this will cause the premature breakdown of the natural beeswax.

### Maintenance warranty

Your fully restored flagstone floor automatically comes with a three month maintenance warranty\*. If any pointing degrades or oil dries back, we will repair/touch-up at no extra cost.

### Will the oil/beeswax need reapplication?

Chances are, your flagstone floor will have been untouched for years – if not centuries! Your fully restored flagstone floor will now improve with age. The nourishing oils and natural beeswax provide a lasting lustre that will improve with the years of foot traffic.

### Would covering my flagstone floor with a rug affect breathability?

Assuming that you want to cover part of your newly restored flagstone floor, always use rugs and underlay that are made from natural materials. Avoid covering your floor with man-made materials.

\* Maintenance warranty begins from the start date
